Embedded Assignment

Research Question - Draft 1

The final assignment—which serves as the final exam—is the writing of a literature review that focuses on a research question relevant to our discussion of the three sectors. This assignment is developed into several smaller steps.

For the first of these steps you will need to develop a research question that focuses on the functioning and role of one or more of the three sectors.

One of the most important parts of the research process is to develop your research question. Without a question that is narrow enough without being too narrow you will find the research process daunting.

In order to prepare you for your project and your assignment next week, please take a few minutes to submit your research question. Remember that this is a draft. You will be refining the question in the next couple of weeks.

To submit your assignment, click on the "View/Complete Assignment" link below. To attach your file, click "Browse" and locate the paper you wish to attach and click "Add". Blackboard will not allow you to re-submit your assignment, so please select your file carefully.

Date Due: Monday June 23

[International Programs]

- What didn't work
 - Doing nothing
 - Online workshops

- New models
 - In person instruction
 - Training on site staff

[Scaffolding]

- Research is complicated
- More contact with librarian
- More pointers to the library materials
 - Reserves materials
 - Digital media
 - Google Scholar
- More online library resources

[Ask a Librarian]

Email a Librarian

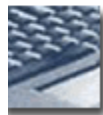

Send us your questions! We usually respond promptly. If you need a prompt response, contact us again! Your address (e.g., Comcast.net) block delivery entirely.
