BENCHMARKING

## BEFORE YOU START: WHAT'S OPEN ACCESS (OA)?

- O DIGITIZED CONTENT
- O ACCESSIBLE ONLINE
- FREELY AVAILABLE
- O FREE OF MOST COPYRIGHT & LICENSING RESTRICTIONS
- O PETER SUBER: "BBB DEFINITION"

Most scientists regarded the new streamlined peer-review process as 'quite an improvement.'

### BEFORE YOU START: WHAT'S A REPOSITORY?

- O WAY OF STORING AND PRESENTING DIGITAL CONTENT
- O DISSEMINATION
- O WIDE RANGE OF TYPES AND USES
- O WHAT GOES IN: POLICY AND TECHNICAL ISSUES
- GENERALLY DISCRETE FILES

Limited Access: U. of I. Users Only

#### Welcome to IDEALS

IDEALS collects, disseminates, and provides persistent and reliable access to the research and scholarship of faculty, staff, and students at the University of Illinois at Urbana-Champaign. Faculty, staff, and graduate students can deposit their research and scholarship - unpublished and, in many cases, published - directly into IDEALS. Departments can use IDEALS to distribute their working papers, technical reports, or other research material. Contact us for more

All theses and dissertations deposited from Fall 2010 onward are available in IDEALS.

#### REGISTRATION

- ALL ABOUT INDEXING
  - O DSPACE INSTANCES
  - O DAISTER

A freely-accessible site for searching only CAlister records is available at <a href="http://loaister.worldcat.org/">http://loaister.worldcat.org/</a>. Additionally, CAlister records are fully accessible through WorldCat.org, and will be included in WorldCat.org search results along with records from thousands of libraries worldwide. They will also continue to be available on the OCLC FirstSearch service to Base Package subscribers, providing another valuable access point for this sich database and a complement to other FirstSearch databases.

#### Contributing to OAIster

OAlister continues to grow and expand. In order to support ongoing expansion, OCLC has transitioned the CAlister database to being included in WorldCat and we are transitioning metadata harvesting to the WorldCat Digital Collection Gateway beginning in July 2010. These changes offer several advantages for repository managers, including:

- You can do self-service harvesting, which means you set your own harvest schedule and customize your metadata map for collections.
- Your library's holdings can be set in WorldCat.
- Your organization's unique collections receive maximum visibility via WorldCat and the WorldCat Gateway, which is available at no charge, and
- Your metadata will be syndicated wherever WorldCat data is syndicated.

Additionally, building on the foundation of its success, OCLC is beginning to integrate QAIster with other open access digital resources. Our plan is to keep the freely-accessible QAIster site available during the transition and evolve it so that it encompasses even more open access materials.

To begin contributing your metadata, and to increase the Web visibility of your unique, open access materials, go to <u>Getting</u> Started with the WorldCat Distal Collection Gateway.

#### A worldwide repository providing integrated access and increased visibility

As your library, archives, museum or and other outburst heritage organization continues to upload metadata through the Gateway, you are developing CAIster and WorldCat into a premier resource for the integrated discovery of open access, digital primary source materials. OCLCs goal is to provide the infrastructure, services and support to help maximize the visibility and integrated discovery of digital content worldwide.

## REGISTRATION ALL ABOUT INDEXING Directory of Open Access Repositories **DSPACE INSTANCES** The Directory of Open Access Repositories - OpenDOAR Search for repositories | Search repository contents | List of repositories | Repository Statistics DAISTER The current directory lists repositories and allows breakdown and selection by a variety of criteria - see the Find page - which can also be viewed as <u>statistical charts</u>. The underlying distalase has been disagraed from the ground up to include in-depth information on each repository that can be used for search, analysis, or underlyining services lists selectioning. The OpenDOAR service is being developed incrementally, developing the current service as new features are introduced. A list of upgrades and Additions is available. OPENARCHIVES.ORG QuerDOAR is one of the SHERPA Services including ButEQ and JULIET, not by the Centre for Research Communications (CRC). Current development work is currently funded by JSC, with combitutions from the CRC hold organisation, the University of Sothington. O OPENDOAR OpenDOAR has also been identified as a key resource for the Open Access community (6,8,0)(sec.\$15,5)(sec.,200) - POP) and identified as the leader in recessing directors in a study by Johns Hopkins University. OpenDOAR was one of the services which contributed to SHERPS being awarded the 2007 SPINC Europe Award for Outsigning Authorements in Substant Communications. © 2006-2011, University of Nottingham, UK, Leef updated: 11-Jul-2010
