Research Studies and Articles
1996 – June 2010

Center for the Study of the College Fraternity
Indiana University
Franklin Hall 206
Bloomington, IN 47405

Bibliography with Search Terms: 1996 – June 2010

This bibliography with search terms contains a record of books, articles and other materials related to empirical studies of fraternity and sorority members and fraternity / sorority life. The time frame included in the bibliography was from January 1, 1996 to June 30, 2010. Other research references including annotations are available from the Center for the years 1950-1970, 1970-1980, 1980-1985, 1986-1995).

The present bibliography was compiled by master's graduate students in the Master of Science in College Student Affairs program at Eastern Illinois University. The bibliography of nearly 500 items was generated using standard library search engines available in Booth Library at EIU, including EBSCO, Academic Search Premiere, Dissertation Abstracts, and other available engines at the time. Use the search and find function of Microsoft Word to search for listings under each search term.

The research efforts of the following students made this bibliographic listing possible.

Karissa Patefield
Zach Wittmann
James Contratto
Nancy Mathewson
Gary Cooke
Shannon Brucker
Marilyn Thomas

The last two graduate students, Brucker and Thomas, were supported by the EIU Graduate School with summer research assistantships.

The present bibliography provides solid supporting documentation for the recently published "evaluative and analytical literature review" by Perkins, Zimmerman, and Janosik published in the June 2011 volume of Oracle: The Research Journal of the Association of Fraternity/Sorority Advisors. The readers of this document are highly encouraged to read Perkins, et al., as they prepare for their own research activities.

The Center continues to encourage authors, researchers in all fields, and other stakeholders to submit additional works on the college fraternity and sorority. Maintaining a complete bibliography of useful information includes esoteric documents that often are not published in the printed literature.

All stakeholders invested in working with undergraduate fraternity and sorority members are encouraged to use the Center's resources, found at www.Indiana.edu/~cscf/.

Charles G. Eberly, Editor
Emeritus Professor of Counseling and Student Development
