The main goal of this award is the evaluation of a proposed suicide screening protocol for identifying and classifying risk in individuals returning from deployment over seas. In addition

to clinical screening assessment there is also a theoretical component to this project. Data will be collected relevant to the Interpersonal Theory of Suicide. We will recruit 20,000 participants making this the largest study to date on the theory.

PRIOR RESEARCH FUNDING

Institute for Translational Health Science (KL2) #1KL2RR025015-01

Source: National Institutes of Science – National Center for Research Resources

Primary Investigator: Mary Disis

Funding Period: 9/17/07-9/14/12

Annual Direct Costs: \$1,729,574

The main goal of this award is the development of the Institute of Translational Health Sciences, a partnership between the University of Washington, Fred Hutchinson Cancer Research Center, Children's Hospital and Regional Medical Center, and local and regional research and community partners. The KL2 component is a training grant that includes didactic instruction and mentored research experience in clinical research methods for doctoral-level trainees in all health science disciplines.

I was a clinical research scholar funded by the University of Washington's KL2. This career development award provides 5 years of 75% FTE funding in interdisciplinary translational research across the spectrum of health services.

Telephone Phone Cognitive Behavioral Therapy for Depression after Traumatic Brain Injury

Source: National Institute of Child Health and Human Development
Primary Investigator: Jesse Fann
Funding Period: 9/15/07 – 8/31/12
Annual Direct Costs: \$150,000

The main goal of this award was to develop a treatment manual and information system, train staff, test feasibility, and conduct a pilot study of telephone-based and in-person cognitive behavioral therapy for major depression following moderate to severe traumatic brain injury.

I was a co-investigator on this grant and contributed by serving as the primary clinician providing treatment.
