IDAHO
EPSCoR

Award No. IIA-1301792
Data Sharing Requirements

For sharing with other MILES researchers:
Immediately via the limited access repository

For sharing with the public:
Processed and Raw data: At a minimum, researchers will catalog and deposit processed data and corresponding metadata in a public access repository... no later than one year from the time of the raw data acquisition or collection...

Derived data products: All derived data products will be made publicly accessible via an approved public access repository... no later than two years from the time of their creation.

Research Products: All research products will be made publicly accessible via an approved public access repository... no later than two years from the time of their creation.
Miles Data Publication Policy

1. Generate Research Data
   - No → Done?
   - Yes → Share Data with MILES Team

2. Share Data with MILES Team
   - No → Deadlines Up? *
     - Yes → Finalize Metadata
     - No → Review & “Cleanse” Data
   - Yes → Mint DOI

3. Finalize Metadata
   - No → Deposit in Public Repository
   - Yes → Embargo Data if Needed

4. Embargo Data if Needed
   - No → Embargo Released?
     - Yes → Share Data with Public
   - Yes → Share Data with Other Colleagues

* Publication deadlines vary depending on type of data
Research Team Needs

1. a closed system where researchers within the project can share data
2. a platform to make final data products discoverable and persistently available
3. a way to track usage of the data
Need #2: Make final data products discoverable and persistently available
Need #3: a way to track usage of the data
Need #3: a way to track usage of the data
Need #3: a way to track usage of the data

Potential reviewer has been suggested. No request has been sent to the potential reviewer.
An email request has been sent asking the potential reviewer to review the submission. The reviewer has not yet responded.
The reviewer has made a commitment to do a review.
The review has been uploaded by the reviewer.
The reviewer did not respond to the request to review before other reviewers volunteered and used up all the reviewer slots.
The reviewer did not manage to complete a review in time and the administrator eventually gave up on getting a review from the reviewer.
The reviewer has declined to do a review.
The reviewer has reneged on their commitment to review.

Publication Date

If this data was previously published or will be published with an article at a later date, please enter that date. If blank, this field will reflect the date the data was uploaded to the repository.

Month  Day  Year

Embargo Period

Please select the length of time after the upload date that you would like your data to be placed under embargo. Records under embargo will still be available to authors during that time period.
