

BOISE STATE UNIVERSITY

# Data services best practices and making exceptions.

Amber Sherman, Assistant Professor/Librarian

BOISE STATE UNIVERSITY

# Library Data Management Team

- Consultations and tools for writing data management plans
- Workshops and curriculum for data management education
- Recommendations for metadata, file formats, and repositories
- Publishing data sets with DOIs

# Publishing Data Sets

## Submitting Data

- [Why should I make my data public?](#)
- [Should I upload my data to ScholarWorks or another site?](#)
- [What kinds of data can be uploaded to ScholarWorks?](#)
- [Who can upload data to ScholarWorks?](#)
- [How should I send my data to ScholarWorks?](#)
- [Who can access my data and what can they do with it?](#)
- [Where will my data be displayed?](#)
- [Are there any size limitations?](#)
- [I have multiple versions of my data, and multiple files, what should I send?](#)
- [Can I limit access and/or embargo release of my data?](#)
- [Will I get download statistics for my data set?](#)
- [Will I get a DOI for my data set?](#)
- [My colleague told me ScholarWorks can help me with my data management plan. Where can I get more information?](#)

## DOI (Digital Object Identifier)

- [What is a DOI?](#)
- [Can ScholarWorks help me get a DOI?](#)
- [Are DOIs only for data sets?](#)
- [Who can I contact for more information?](#)

# The Lab for Ecohydrology and Alternative Futuring

The screenshot shows the website for the Lab for Ecohydrology and Alternative Futuring (LEAF). The browser address bar displays <https://leaf.boisestate.edu>. The page title is "About LEAF - Leaf".

# Long Term Access and DOIs

## What is a DOI?

DOI stands for "Digital Object Identifier." It is an identifier originating from the publishing world and in widespread use for journal articles. DOIs become persistent when the objects and identifier forwarding information are maintained. - EZID

### MEMORANDUM OF UNDERSTANDING

Boise State University

Office of Information Technology and Albertsons Library

**Purpose:**

The purpose of this Memorandum of Understanding is to provide in writing an agreement made between the Boise State University Office of Information Technology (OIT) and the Boise State University Albertsons Library (Library) regarding the long term storage and management of OIT hosted research data sets.
