IGI Global to Publish Book by SHU English Professor Anita August: Visual Imagery, Metadata, and Multimodal Literacies Across the Curriculum

News Story: June 14, 2017

"A student's learning experience can be enhanced through a multitude of pedagogical strategies. This can be accomplished by visually engaging students in classroom activities. Visual Imagery, Metadata, and Multimodal Literacies Across the Curriculum is a pivotal reference source that examines the role of visual-based stimuli to create meaningful learning in contemporary classroom settings. Highlighting a range of relevant topics such as writing composition, data visualization, and literature studies, this book is ideally designed for educators, researchers, professionals, and academics interested in the application of visual imagery in learning environments."
