I have directed the Baker Act Reporting Center since 1998. This Center receives statewide data on involuntary examination (i.e., emergency commitment) and involuntary inpatient placement and involuntary outpatient placement (i.e., inpatient civil commitment and outpatient commitment). Many of the technical reports I have done use these Baker Act data. My work related to the Baker Act was cited in the University of South Florida Application to the Carnegie Foundation for the Advancement of Teaching for elective Classification in Community Engagement, submitted in September 2006.
