The Berkeley Electronic Press is pleased to announce the launch of an exciting new peer-reviewed journal in political science, World Political Science Review. This is the 9th new journal added in 2006, and brings the bepress journal collection total to 35.

The [World Political Science Review](#) publishes prize-winning articles nominated by prominent national political science associations around the world, and translated into English. In a field as international as political science, scholars have a vital need to know about important political research produced outside the English-speaking world. WPSR bridges the language barriers that have made this cutting-edge research inaccessible up to now. Articles come from Belgium, Denmark, Finland, Germany, Israel, Italy, Norway, Lithuania, and Switzerland, and will extend in 2007 to Brazil, South Africa, South Korea, The United Arab Emirates, and several other Asian countries.
