Located on the third floor of Grable Library, the Learning Resources Center houses a collection of materials that support the College of Education’s teacher education programs. Our collection includes both materials appropriate for use in a P-12 classroom and professional resources for P-12 teachers. We provide reference and instruction for students and faculty in the College of Education.

Youth Collection
The LRC’s Youth Collection contains books and audiovisual materials appropriate for students in grades P-12. We have a large collection of current and classic youth literature, including picture books, chapter books, nonfiction, poetry, and folktales. Our A/V collection consists of videos, books on tape, books on CD, and playaways.

Professional Collection
Professional materials for teachers are housed in the Professional Collection, which is organized with a section for each curriculum area. Within each area you’ll find professional books (idea books, lesson planning guides, and books that discuss the latest trends in education and teaching methods), textbooks, and A/V materials (videos, kits, games, posters, puzzles, puppets, and more). We also have a collection of educational software programs which are loaded on the LRC’s computers for you to preview.
