- OW6 laws - 1916-1990
  - roasting (up direction)
  - dying/roaring 2
  - 267 #
  - cons.

Note the cluster 1963-1976: LBJ and Kirby/Ad

- also context - a spending/royIpacht
- $1 LBJ and Nixon

- reopen
- CH 61, 65
- CSG, CISP, Clean Air, Clean Water, CFP

a) high level of the left
b) party most important

tieback

With background (the data)

1906 - 16
1932 - 38

The footage:

a) yes, sounds - slings/bump
   - end (3)

b) "public policy" underwriting
   - v. heterogeneous
   - anti-redigent
   - anti-party gov.

- mod.
- movemen.
- event (status)
Then, caregiver: "Our random reading --- say W. Thue?"

a) do these work? has self?

- [handwritten notes]

1) the spellings
2) the numbers (style?)
3) the meaning

- [handwritten notes]

Not just policy - Rat is of studied

b) Why do this?

US accounts are very unclear - our Revenue

- [handwritten notes]

Some communism theory, but other not (arguing point, e.g., not studied that way)

c) For: then - get away from W. entirely

- [handwritten notes]

a) defining
b) a strong conclusion

c) a non-natural event

- [handwritten notes]

d) all this is very speculation - not systematic - just see it.
