Research Data Services

Research data services will help you manage your data throughout the life of your scholarship, from creating a data management plan to selecting a data repository in which to share the final results of your work. Research data services aims to help all researchers -- from undergraduate students to tenure track faculty; from poets to physicists.

Learn

Best practices for management of your scholarly outputs.

Plan

Meet funder requirements.

Share

Facets of sharing your data with the world.

Want to learn more about us?

How we can help

Other resources
Digital Scholarship Center

The Digital Scholarship Center assists faculty and students in the creation of digital projects. We are happy to consult with you and connect you to other library and campus resources that can support your digital scholarship.

We provide access to image databases and teach image discovery techniques for our users, and we provide consultation and assistance for faculty members who maintain their own image collections.

Who can use the DSC?

Our imaging and consultative services are available for use by any person in the UMass Amherst campus community.

Any person on campus can access Luna and Artsstor, and those with NetIDs can connect from off-campus. Faculty members and instructors may request accounts to make use of some of the more advanced features of the databases to help prepare and present images.

Scholarly Communication - SOAR Fund

- [https://www.library.umass.edu/services/writing-and-publication/soar-fund/](https://www.library.umass.edu/services/writing-and-publication/soar-fund/)

### SOAR Fund

The UMass SOAR ("Supporting Open Access Research") Fund supports open access publication of University of Massachusetts Amherst peer-reviewed scholarship. The Fund is available to support researchers on a first-come, first-serve basis. To apply for funds, contact Erin Jerome at ewjerome@library.umass.edu.

The SOAR Fund is compatible with the Compact for Open-Access Publishing Equity (COPE).

- **We are no longer accepting applications for FY 18.**

UMass Amherst Libraries

Environmental Conservation

Finding Information for your ECo papers

For science-based topics for Environmental Conservation research, explore these pages.

For policy topics, use the research guide on Public Policy & Administration, and talk to a librarian for that area.

For regional planning topics, contact Madeleine Charney and see the Landscape Architecture and Regional Planning guide.

For a business focus, see the Business guide.

You get the idea.

Quick List of Databases for Environmental Conservation

Research databases help you find journal articles and many other types of publications. The best database to use is determined by your research topic. Consult Madeleine or Paulina for help!

Find other useful databases in Find articles.

Off-campus, log in with your UMass Amherst NetID.
Interlibrary Loan
