Ilya N. Beloglazov (?-2014)

Prof. Ilya N. Beloglazov Vice Rector of Leningrad Mining Institute, USSR, spent two months in early 1989 at the Department of Mining and Metallurgy at Laval University in Quebec City within the Exchange Program Canada - USSR. Few months later the Soviet Union fell apart and his home town recovered its original name Saint Petersburg. In May 1994 he organized the International Symposium “Problems of Complex Ores Utilization”. The proceedings were published as a special volume of Metal Processing and Extractive Metallurgy Review published by Gordon & Breach Publishers 15(1-4), 1-262(1995) and edited by F. Habashi, I. Beloglazov, and Arnold A. Galnbek. Unfortunately, Beloglazov died at a very young age.
