Chemistry and Metallurgy in the Great Empires

Fathi Habashi

Available at: https://works.bepress.com/fathi_habashi/89/

The book is composed of two nearly equal parts: a collection of 19 articles by the author reprinted from the *Bulletin of Canadian Institute of Mining, Metallurgy, and Petroleum* covering briefly the history of chemistry and metallurgy in the great empire. The other half is composed of articles written specially to complete the book in a total of 272 pages 21.5 x 28 cm, hard cover. Fully illustrated in color, suitable for the general reader as well as metallurgical engineers, chemists, and students.
