THERAPEUTIC SENSORY STIMULATION GARDEN

An Introduction by BAKTI MIND Project
ABOUT THE AUTHORS

ZALIHA OMAR has at the outset in 2004 helmed the grassroots work at BAKTI-MIND as Honorary Project Leader. A pioneer Rehabilitation Physician, she currently practices her specialty concurrently at University of Malaya Medical Centre, Sunway Medical Centre and Langkawi Hospital. Additionally, she holds the Petronas Chair at the Department of Rehabilitation Medicine, University of Malaya. In this book she has blended together her love of gardening, her passion for achieving inclusiveness for PWD, her experience in patient care, her belief in sustainable living and her creativity in the kitchen solely for the reader’s browsing pleasure with the ultimate hope of propagating humanity’s sustained interest in greening the earth for generations to come.

HAZREENA HUSSEIN is a senior lecturer at the Department of Architecture, Faculty of Built Environment, University of Malaya, after having started her career in Landscape Architecture at Malik Lip & Associates. Possessing a doctoral degree in Landscape Architecture from Edinburgh College of Art, her research interests are focused on environment-behaviour interactions and multi-sensory stimulation environments. Her work on ‘Engaging Research and Practice in Creating for Outdoor Multi-Sensory Environments’ has been awarded as the Best Paper at an international conference in London in 2013.
