Applicants to Peace Prize Winner Organizations as Winners of those Prizes-James T. Struck BA, BS, AA, MLIS Case Study

Applicants to Peace Prize Winner Organizations can arguably be seen as co-winners of those prizes related to employment discrimination concepts. As employment discrimination is illegal, people like me here in this application letter who applied to work with the Organization for Prohibition of Chemical Weapons (OPCW) 8/2013 can be seen as winners of those prizes. The legal implications of applicants being co-winners are clearly controversial. Should co-winners have some share of the prizes? As prize competition is an industry, prize applicants have a right to request compensation for being applicants to organizations that win particularly when people like me apply to organizations like the Nobel Peace Prize where winning is related to contributions to fraternity among nations, reduction in standing armies, and peace conferences during the year and my other work included ending the state of war with Bulgaria, Ottoman Empire, Austria Hungary, North Korea, right of solidiers to sit, Unilateral Peace Congresses and peace with disabled persons who lose rights in many areas under guardianships.

Chemical weapons are used on a widespread scale against people who are different, the National Socialists in fact gave U.S. use of shots without consent as their reason for the Holocaust. U.S. banks too are invested in by Dutch and other interests. Overdraft money sadly can be associated with funding of chemical weapons distribution by chemical weapon suppliers. Chase took money in Europe then Chase was associated through some Rockefellers with chemical interests giving harmful treatment at Auschwitz. The list of chemical weapons suppliers to Iraq involved many nations; the actual suppliers of chemicals used in Syria probably includes many nations too not Syria. Let's try to give rights to people with disabilities to NOT get chemicals without consent before more harmful U.S. weapon use in other countries. Philip Shenon's 12/21/2002 "THREATS AND RESPONSES: SUPPLIERS; Declaration Lists Companies That Sold Chemicals to Iraq" New York Times lists 31 foreign suppliers, 2 U.S. Suppliers of chemicals to Iraq. Syria's problem is too many chemicals everywhere NOT their eye doctor leader.

I wrote the Gospel of Dismas, Book of Boj, Book of the Prophet James Timothy Thomas, Holy Books by You with that timeline in mind. New Bible books can be written. Also as Amendment 12 says to take persons with highest numbers not exceeding 3, and I got 2 votes for president, I could be seen as US Co-president. This view of me as co-president shows the effect of looking at wording of laws, amendments, constitution. There was no 2/3's or 3/4's majority in election this year, so from the persons with the highest numbers not exceeding three like me with 2 presidential votes, I could be seen as co-President of the US but this position is not budgeted currently. See Amendment 12. "The person having the greatest Number of votes for President, shall be the President, if such number be a majority of the whole number of Electors appointed; and if no person have such majority, then from the persons having the highest numbers not exceeding three on the list of those voted for as President, the House of Representatives shall choose immediately, by ballot, the President."
