Household Livelihood Security Assessment for Catholic Relief Services - Zimbabwe

Prepared by
John Mazzeo, Ph.D.

and

July 2009
# Table of Contents

Executive Summary ........................................................................................................ iv

1. Introduction ................................................................................................................ 1
   1.1 Background ............................................................................................................. 1
   1.2 C-SAFE Zimbabwe ............................................................................................... 3
   1.3 CRS in Zimbabwe ................................................................................................. 3
   1.4 Household Livelihood Security Assessments (HLSAs) .............................................. 4
   1.5 Objectives of this report ......................................................................................... 5

2. Methodology ................................................................................................................ 6

3. Current household livelihood security situation and its recent evolution ....................... 10
   3.1 Livelihood Context ............................................................................................... 10
      3.1.1 Household characteristics ............................................................................... 10
      3.1.2 Livelihood strategies ...................................................................................... 13
      3.1.3 Cash income, expenditures and borrowing ....................................................... 22
      3.1.4 Household Assets ............................................................................................ 26
      3.1.5 Agricultural production .................................................................................... 28
      3.1.6 Health environment and behaviors .................................................................. 39
      3.1.7 Social support and participation in community safety nets .............................. 51
   3.2 Livelihood security and components ..................................................................... 52
      3.2.1 Food security .................................................................................................... 53
      3.2.2 Health security ............................................................................................... 57
      3.2.3 Education security .......................................................................................... 59
      3.2.4 Income security .............................................................................................. 61
      3.2.5 Livelihood security .......................................................................................... 64

4. Impact of CRS interventions ....................................................................................... 65
   4.1 Participation in CRS interventions ......................................................................... 65
   4.2 Impact of interventions .......................................................................................... 65

5. Conclusions and recommendations ............................................................................. 66

Annex 1. 2009 HLSA questionnaire ................................................................................. 67
Annex 2. Calculating the Coping Strategies Index ........................................................... 68
Annex 3. Calculation of Factor Analysis Indices ............................................................... 70
List of Tables

Table 1. Districts, wards and households included in the 2009 sample.................................................. 8
Table 2. Household demographic characteristics, by survey year .............................................................. 10
Table 3. Access to education, 2009................................................................................................................. 12
Table 4. Participation in agricultural production and livestock rearing, by district, 2009.......................... 13
Table 5. Percentage of households engaged in various income generating activities, by survey year .... 16
Table 6. Percentage of households engaged in various trading and self-employment activities a/ , 2009 .. 18
Table 7. Sources of cereals during the lean period (January-April), by district ............................................. 20
Table 8. Percentage of households reporting major expenditure categories a, by survey year ...................... 23
Table 9. Percentage of households borrowing money in past four months, by district and survey year ....... 25
Table 10. Reasons for borrowing, by survey year ......................................................................................... 26
Table 11. Sources of loans, 2009 ...................................................................................................................... 26
Table 12. Percent of households owning, purchasing, and selling selected household assets in the previous year, 2009 ........................................................................................................ 27
Table 13. Reasons for sale of productive assets, 2009..................................................................................... 28
Table 14. Land ownership, size of land owned, percent of land cultivated, by district and survey year ... 29
Table 15. Reasons for leaving land uncultivated (% of households), 2009...................................................... 29
Table 16. Percentage of farming households growing major field crops, by district ................................. 33
Table 17. Percentage of cultivated area planted to major field crops, by district ........................................ 34
Table 18. Production of major field crops (kilograms), by district................................................................. 34
Table 19. Median and mean crop yields (kilograms per hectare), 2009......................................................... 36
Table 20. Availability and sources of seed for maize and groundnuts ............................................................ 36
Table 21. Types and sources of agricultural training received, 2009............................................................ 37
Table 22. Percentage of households with access to garden, by district, 2009 ............................................. 38
Table 23. Sources of water for gardening, 2009 ............................................................................................. 38
Table 24. Water sources, storage and collection, and type of latrine used, by survey year ......................... 40
Table 25. Handwashing and soap use, 2009 .................................................................................................... 43
Table 26. Treatment of illness, 2009 ............................................................................................................... 44
Table 27. Knowledge of HIV and AIDS, by survey year ................................................................................. 46
Table 28. Discrimination based on HIV and AIDS infection, by district, 2009 ............................................. 48
Table 29. Information about chronically ill, care and services, 2009 ............................................................ 50
Table 30. Social support provided by community members, 2009 ............................................................... 52
Table 31. Average food security index and index components, by district ................................................. 54
Table 32. Average health security index and index components, by district .............................................. 58
Table 33. Average education security index and index components, by district ....................................... 60
Table 34. Average income security index and index components, by district ......................................... 63
