Overview Slide Lynam

Joan Lynam, *Louisiana Tech University*
Dr. Joan G Lynam
Assistant Professor of Chemical Engineering

Want to join the Biomass Team and try real research? Email me at lynam@latech.edu to find out how!

Teaching:

**FALL**
Reactor Design and Kinetics
(CMEN 402)

**WINTER**
Bioprocess Engineering
(CMEN 455)

**SPRING**
Agricultural Wastes to Products
(ENGR 189B)

Research Focus:

“Waste to Energy and Biomass to Bioproducts”

Major Research Projects:

- Conversion of Biomass to Glucose
- Biomass Separation Using Ionic Liquids
- Rice Husks, Sugarcane Bagasse, & Coffee Chaff to Bioproducts and Biofuels
