September 13, 2013

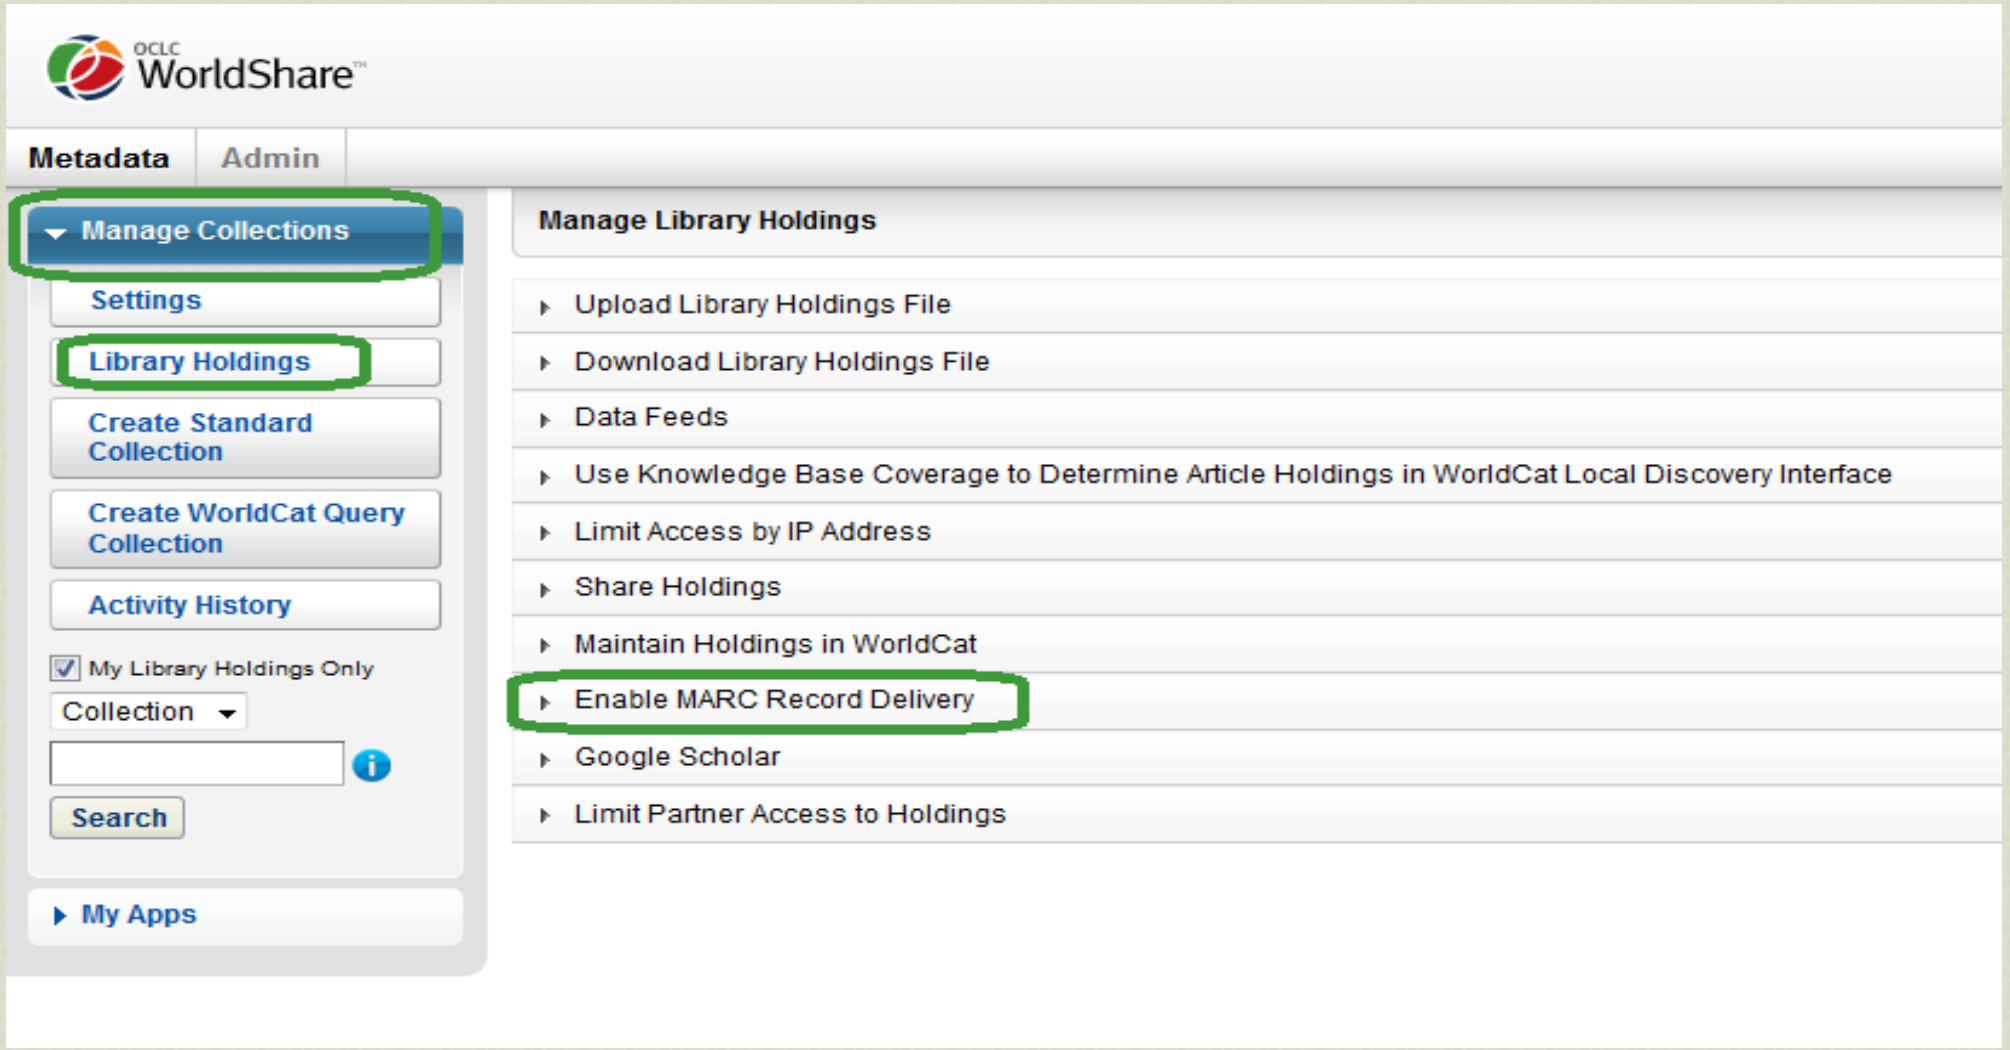
WHAT IS IT?

Former service named Bibliographic Notification (Bib Note)

now part of **WorldShare Metadata Collection Manager**

If you are an OCLC cataloging subscriber,

OCLC gives you *free* files of records you hold as they are updated



OCLC WorldShare

Google Scholar
Limit Partner Access to Holdings

CUSTOMIZED RECORDS

Can customize data in updated records

- Can add fields / subfields: holdings code, field with reason for delivery, delivery date
- Can delete fields / subfields : 029 or 650 _7
- Can customize 856
- Can include Local Holdings Records
- Can set record schema: MARC, MARCXML, MODS, Dublin Core

CUSTOMIZED "TRIGGER" FOR UPDATES

Can customize which updated records OCLC sends

Receive records because of any changes

Receive records because of changes to specific fields, or records for specific formats

UK'S PROFILE (AS OF 9/4/13)

Receive records for all formats held by KUK

Triggered by changes in access points or encoding level change

- 1XX
- 6XX (2nd ind 0 or 2)
- 7XX
- 8XX

to blank or I

We exclude any Government Documents and any records with 856 (back end)

Still reviewing records one-by-one from delivered file

RESULTS

Started receiving files in mid-July 2013

Average of ~ 700 records / day on current profile

Lots of authority cleanup!

Lots of record-reviewing!

Largest file so far under most recent profile: 4,406 records

Most common field edited: 100

TWO WARNINGS!!

Check your **overlay profile** / methodology!

Records that are suppressed may become unsuppressed

You may lose local edits (check how your overlay works)

OCLC sends the entire record, not just the edits

Communicate with your catalogers!

As Lori Robare says, “chocolate helps”
