PUBLIC RALLIES TO HELP

by Jim Whitney

DORSET—The recently formed Dorset-Franklin Fund is holding public meetings in the three local towns to raise money for

the flood victims of the Three Rivers. The fund is the only one that has been established to help the flood victims in the area.

A community supper has been planned in Winooski on Feb. 21. The supper will be held at 6 p.m. and will feature a silent auction.

The supper is open to the public and will feature a variety of items for sale. The auction will feature a wide variety of items, including
dinnerware, sports equipment, and home decor.

The purpose of the supper and auction is to raise money for the flood relief efforts. The money raised will be used to help

victims in the area. The fund has already raised over $100,000 and continues to receive donations from individuals and businesses.

The fund is continuing to accept donations and will use the funds to provide assistance to flood victims. The public is encouraged

to donate to the fund and to attend the supper and auction.

Lithgow, Yes! Brickman, No!

If you, personally, you yourself, design the blueprint for a house, if you then build the house, you're not really living comfortably in it. If you can only say, "Well, I paid for it," you haven't really "lived" in it.

Home movies by Roger Carr

If you want to find out how your family lived before television, in the early 1900s, you should watch home movies. They provide a unique glimpse into the past and offer a sense of nostalgia.

Committee choices

I initially had my eye on some of the more conservative committees, such as Transportation, Education, and Human Resources. I can't recall exactly what led me to change my mind, but I eventually settled on the Committee on Ethics. I think it was because I felt that the committee had a more balanced approach to issues.

Everything is political

Last week I began serving as your Representative and learning about the real world of politics. It is certainly a challenging and frustrating experience. As a legislator, I have come to realize that there is certainly politics in all aspects of life, and it is really with a capital "I". I find myself speaking more often about the powers of the media and the influence of special interest groups.
