Kritika Walia, Research

Available at: https://works.bepress.com/kritika-walia/146/
According to the global Industrial Control Systems Security Market report published by Value Market Research, the market is expected to touch USD 20.2 BN by 2024, with a CAGR of 6.5% growing from USD 13 BN in 2017. This is a tailored made research service providing informative data and various critical aspects of the market such as market outlook, market share, growth, and trends. Further, the report also offers evidence-based information that helps to transform clients business and achieve their business goals. Moreover, the report also highlights the key strategy of top players. Additionally, this report covers a wide spectrum of services such as the latest technology trend, market opportunity analysis, and competitive landscape.

The report also covers detailed competitive landscape including company profiles of key players operating in the global market. The key players in the industrial control systems security market include ABB, Baker Hughes, Belden, Check Point Software Technologies, Cisco, Fireeye, Fortinet, Honeywell, and McAfee. An in-depth view of the competitive outlook includes future capacities, key mergers & acquisitions, financial overview, partnerships, collaborations, new product launches, new product developments and other developments with information in terms of H.Q.

Market Dynamics

Rising deployment of smart technology such as cloud, smartphones, and tablets in supervisory control and data acquisition (SCADA) and ICS is the major factor fueling the market growth. Also, rules and regulation set up by the respective bodies of various countries for operation, maintenance, and security of critical infrastructure are also supporting the growth of the industrial control systems market to some extent. On the other hand, lack of professionals coupled with the growing cases of cyber-attacks are the factors expected to hamper the market growth.

This detailed market study is centered on the data obtained from multiple sources and is analyzed using numerous tools including porter’s five forces analysis, market attractiveness analysis and value chain analysis. These tools are employed to gain insights of the potential value of the market facilitating the business strategists with the latest growth opportunities. Additionally, these tools also provide a detailed analysis of each application/product segment in the global market of industrial control systems security.

Market Segmentation

The broad industrial control systems security market has been sub-grouped into solution, service, security type, and vertical. The report studies these subsets with respect to the geographical segmentation. The strategists can gain a detailed insight and devise appropriate strategies to target
specific market. This detail will lead to a focused approach leading to identification of better opportunities.

By Solution

- Antimalware/antivirus
- Distributed Denial of Service (DDoS) Mitigation
- Encryption
- Firewall
- Identity and Access Management (IAM)
- Intrusion Detection System/Intrusion Prevention System (IDS/IPS)
- Security and Vulnerability Management
- Security Configuration Management
- Security Information and Event Management (SIEM)
- Whitelisting
- Others

By Service

- Consulting and Integration Services
- Support and Maintenance Services
- Training and Development Services
- Incident Response Services
- Managed Security Services

By Security Type

- Network Security
- Endpoint Security
- Application Security
- Database Security

By Vertical

- Power
- Energy and Utilities
- Transportation Systems
- Manufacturing
- Others

Regional Analysis

Furthermore, the report comprises of the geographical segmentation which mainly focuses on current and forecast demand for industrial control systems security in North America, Europe, Asia Pacific, Latin
America, and Middle East & Africa. The report further focuses on demand for individual application segments in all the regions.

About Us:

Value Market Research was established with the vision to ease decision making and empower the strategists by providing them with holistic market information.

We facilitate clients with syndicate research reports and customized research reports on 25+ industries with global as well as regional coverage.
