According to the global Automotive Airbag Fabric Market report published by Value Market Research, the market is expected to touch USD 1,557.9 MN by 2024, with a CAGR of 3.8% growing from USD 1,200 MN in 2017. This is a tailored made research report providing informative data and various critical aspects of the market such as market outlook, market share, growth, and trends. Further, the report also offers evidence-based information that helps to transform clients business and achieve their business goals. Moreover, the report also highlights the key strategy of top players. Additionally, this report covers a wide spectrum of services such as the latest technology trend, market opportunity analysis, and competitive landscape.

The report also covers detailed competitive landscape including company profiles of key players operating in the global market. The key players in the automotive airbag fabric market include Asahi Kasei Co., Ltd., Autoliv AB, Global Safety Textiles GmbH, HMT (Xiamen) New Technical Materials Co., Ltd., Kolon Industries, Takata Corporation, Teijin Limited, Toray Industries, Toyobo Co., Ltd., Toyota Boshoku Corporation and ZF Friedrichshafen AG. An in-depth view of the competitive outlook includes future capacities, key mergers & acquisitions, financial overview, partnerships, collaborations, new product launches, new product developments and other developments with information in terms of H.Q.

Market Dynamics

The automotive airbag fabric market is majorly growing on account of increasing automobile sales and increase in installation of air bags per car. Stringent safety standards to ensure more safety for passengers and driver are further fueling the marker growth. Also, rising concern regarding the passenger safety is projected to push the market demand upwards in forecasting period.

This detailed market study is centered on the data obtained from multiple sources and is analyzed using numerous tools including porter’s five forces analysis, market attractiveness analysis and value chain analysis. These tools are employed to gain insights of the potential value of the market facilitating the business strategists with the latest growth opportunities. Additionally, these tools also provide a detailed analysis of each application/product segment in the global market of automotive airbag fabric.

Market Segmentation

The broad automotive airbag fabric market has been sub-grouped into vehicle type, application, yarn type, coating type and product type. The report studies these subsets with respect to the geographical segmentation. The strategists can gain a detailed insight and devise appropriate strategies to target specific market. This detail will lead to a focused approach leading to identification of better opportunities.

By Vehicle Type

- Compact Car
- Mid-Sized Car
- Large Car
- MPV & LCV
- SUV
- Others

**By Application**
- Front Airbag
- Side Airbag
- Knee Airbag
- Curtain Airbag
- Others

**By Yarn Type**
- Polyamide
- Polyester

**By Coating Type**
- Neoprene Coated
- Silicone Coated
- Non-Coated

**By Product Type**
- Flat Airbag Fabric
- OPW Airbag Fabric

**Regional Analysis**

Furthermore, the report comprises of the geographical segmentation, which mainly focuses on current and forecast demand for automotive airbag fabric in North America, Europe, Asia Pacific, Latin America, and Middle East & Africa. The report further focuses on demand for individual application segments in all the regions.
