Hexylene Glycol Market: Size, Growth and Value Analysis Report Till 2025

Kritika Walia, Research

Available at: https://works.bepress.com/kritika-walia/205/
According to the global *Hexylene Glycol Market* report published by Value Market Research, the market is expected to touch USD XXX MN by 2025, with a CAGR of X.X% growing from USD XXX MN (by revenue) in 2018. This is a tailored made research report providing informative data and various critical aspects of the market such as market outlook, market share, growth, and trends. Further, the report also offers evidence-based information that helps to transform clients business and achieve their business goals. Moreover, the report also highlights the key strategy of top players. Additionally, this report covers a wide spectrum of services such as the latest technology trend, market opportunity analysis, and competitive landscape.

The report also covers detailed competitive landscape including company profiles of key players operating in the global market. The key players in the hexylene glycol market include Arkema Group, BASF SE, DowDupont, FINAR LIMITED, Lonza Group, Monument Chemicals, Inc., Praasol Chemicals Ltd, SOLVAY S.A., Solventis Ltd. and SRL Pvt Ltd. among others. An in-depth view of the competitive outlook includes future capacities, key mergers & acquisitions, financial overview, partnerships, collaborations, new product launches, new product developments and other developments with information in terms of H.Q.

**Market Dynamics**

Growing demand from chemical, leather, paints and coating, cosmetic and other end-use industries is driving the market growth. Growing usage across various industries as a surfactant, anti-caking agent, precipitant, cryoprotectant, and the coupling agent is boosting the market demand. In spite of this, dependency on raw material leading to high cost of hexylene glycol and availability of better substitute are some of the factors restraining the market growth.

This detailed market study is centered on the data obtained from multiple sources and is analyzed using numerous tools including porter’s five forces analysis, market attractiveness analysis and value chain analysis. These tools are employed to gain insights of the potential value of the market facilitating the business strategists with the latest growth opportunities. Additionally, these tools also provide a detailed analysis of each application/product segment in the global market of hexylene glycol.

**Market Segmentation**

The broad hexylene glycol market has been sub-grouped into grade, application and end-user. The report studies these subsets with respect to the geographical segmentation. The strategists can gain a detailed insight and devise appropriate strategies to target specific market. This detail will lead to a focused approach leading to identification of better opportunities.

**By Grade**

- Pharmaceutical
- Industrial
By Application

- Solvents
- Chemical Intermediate
- Antifreezes
- Others

By End-Use

- Paint & Coating
- Chemical
- Oil & Gas
- Construction
- Leather & Textile
- Drugs, Cosmetic & Personal Care
- Others

Regional Analysis

Furthermore, the report comprises of the geographical segmentation, which mainly focuses on current and forecast demand for hexylene glycol in North America, Europe, Asia Pacific, Latin America, and Middle East & Africa. The report further focuses on demand for individual application segments in all the regions.
