School of Library and Information Science, University of Kentucky, Lexington, KY

Fieldwork can help students experience real library settings and develop a professional identity. The benefits to libraries include additional skilled help for programs and projects, developing recruits, and energizing seasoned professionals through opportunities for co-learning and mentoring.

Benefits for the Library

• Additional skilled assistance on short term projects
• Develop relationships with potential recruits for the National Library of Medicine’s Fellowship Program and entry level professional positions
• Networking opportunities for professionals and students which may open the door for mentorship
• Infusion of new ideas and energy into the organization
• Raise awareness of the library’s initiatives and inclusive culture in library schools

Our Experience as Interns

- Introduced to the mission, collection, databases, terminologies, research and development, training, outreach and exhibits of the National Library of Medicine first hand
- Met with numerous staff members and the current 2013-2014 Fellows
- Introduced to the Fellowship Program
- Built practical and soft skills in a new professional environment

Benefits for the Library

• Additional skilled assistance on short term projects
• Develop relationships with potential recruits for the National Library of Medicine® Fellowship Program and entry level professional positions
• Networking opportunities for professionals and students which may open the door for mentorship
• Infusion of new ideas and energy into the organization
• Raise awareness of the library’s initiatives and inclusive culture in library schools

National Library of Medicine entrance, Bethesda, MD
