Student and faculty expectations for learning in various delivery models

Online, hybrid, and face-to-face delivery models

Minimizing frustrations
Maximizing learning experience for all
Today’s College Student

* New HS grad
* Single parent
* Over 28 years old
* Employed full time
* Veteran
* First generation attendee
  * Rely on hearing, observing not in writing
* DIVERSE

Today’s Expectations

* Convenience
* Quality education
* Choices
* COMMON TO ALL
College Student Role

“Mastering the college student role enables young people to understand their instructors’ expectations and to apply their existing skills to meet those expectations successfully” (Collier & Morgan, 2008, p. 425).

First generation college students

* Rely exclusively on information they acquired from hearing, observing, and interpreting the actions of professors.
* May need more explanation of strictness of completion dates
* How to take notes
* Description of assignments
* Specifics about tests

* Even syllabus layout: bullet points, colored paper, varying font
Influence of technology
(mobile, email communication, distance learning)

* Email/electronic communication
  * tone subject to interpretation by writer and reader
* Feelings of lack of personal interaction
  * geographically and psychologically
* Pedagogical expectations
  * instant, continuous accessibility
  * Synchronous and asynchronous communication
* Digital natives
  * They may know how to use a lot, but still need direction on researching and sources
## Behavior in the classroom (discipline, incivilities, attitudes)

**TOP disturbances:**
- talking in class
- emotional outbursts
- confronting teacher w/ sarcastic remarks
Recommendations

* Syllabus/Learning Management System:
  * Formative assessment (minimal grade) to check for understanding
  * How about a syllabus quiz?
  * Include questions to determine if students can navigate the LMS.
  * Face to face classes - review in class and do a syllabus quiz

* Course objectives/expectations:
  * Include checks and rechecks for understanding of assignment expectations
  * For longer assignments, consider progress checks/conferences.
Recommendations

* Time management:
  * Office hours
    * Explain purpose of office hours
    * Minimize barriers or intimidating factors
    * Online/hybrid: consider dedicated time for live chat/virtual
  * Establish deadlines and guidelines for interactions, responses - email, discussions, etc.

* Training:
  * Orientation, pre-service, on-going mentoring
  * Low stakes practice before high stakes projects
    * For example - practice finding information online before a research project; group practice tasks before the big project
