This is a 488 page PDF containing the collection's full bibliographic details as recorded during the 2004-2005 processing project. This section is organized by lot number and the titles are listed as they were presented for each lot during the auction.

During processing, the author applied some bibliographic elements that were not found on the original; these are noted with brackets around the text or as]] at the end of a data field in order to maintain sorting capability for that field. Condition notes set in parentheses originated in one of the pre-transfer appraisal lists. Meg Miner is solely responsible for the remaining content.
