Challenges and Opportunities: One Academic Library, Seven Hospitals and a Consortial Move

Melanie McGurr, University of Akron
Demetria Patrick, Northeast Ohio Medical University
Project Phases

Phase I
- Shared Server
- Innovative Hosted

Phase II
- Stand Alone Server
- Innovative Hosted NEOMED & Hospitals

Phase III
- Sierra

NEOMED, Hospitals & Community Colleges OhioNET Hosted
Challenges We Can’t Meet

• Staffing
• Fear of change
• Add ons (including security system/self checkout)
Challenges We Can Meet

- IP Changes
- IT Complications
- Documentation & Communication
- Training
Outcomes

• More documentation and direction for IT
• Check lists for staff
• Sierra Training vs. orientation
• Communication and documentation

IP Change Check List

If your IP is going to change for any reason, use this check list to keep your access updated. You can add or delete IPs online with some vendors, but other vendors may require a phone call, e-mail, or letter. Be prepared to explain the change in IP and why the change is needed.

Contact the following:

☐ NEOMED

☐ IT Department (I removed “if needed” because it is almost always needed)

☐ Vendors

☐ EBSCO

☐ Individual Journals (NEJM, Academic Medicine?)

☐ Databases (Clinical Key, Access Medicine?)

☐ E-Book packages (LWW, EBSCO Health?)
WebPAC

Before conducting WebPAC testing, refresh web applications. For more information, see Refreshing Web Applications (107441).

Can you log into My Millennium?

Do patron records display properly in My Millennium? (Have several staff and patrons check their records via My Millennium. Confirm that elements display correctly, e.g., reading history, fines, holds, checked out items, preferred searches, etc.)

Can you place a hold?

Can you renew an item?

Can you search for an item?

Advanced Keyword Search (In addition to doing the search, click through to an individual record.)
