

Vita
Michael R. Kuhns

Department of Wildland Resources
5230 Old Main Hill
Utah State University
Logan, UT 84322-5230
(435)797-4056
mike.kuhns@usu.edu

EDUCATION

Ph.D. March 1986, Auburn University. Major: Tree Physiology. Dissertation: Photosynthate allocation in loblolly pine (*Pinus taeda* L.) as related to water deficit and time of year.

M.S. August 1980, University of Missouri-Columbia. Major: Forest Ecology/Physiology. Thesis: Black walnut root growth.

B.S. December 1977, University of Missouri-Columbia. Major: Forest Management.

PROFESSIONAL EXPERIENCE

Interim Department Head, Wildland Resources, Utah State University. July 2012 to present.

Professor/Extension Forestry Specialist, Department of Forest Resources/Wildland Resources, Utah State University. April 1992 to present (Assistant Professor April 1992 to April 1995; Associate Professor April 1995 to June 2005).

Acting Head, Department of Forest Resources, Utah State Univ. August 2000 to July 2001.

Assistant Professor/Extension Forestry Specialist, Department of Forestry, Fisheries and Wildlife; University of Nebraska. January 1986 to March 1992.

Graduate Research Assistant, School of Forestry, Auburn University, Auburn, Alabama. August 1982 to December 1985.

Timber Sale Preparation Forester, Medicine Bow National Forest, Hayden District, Encampment, Wyoming. December 1980 to July 1982.

Cartographer, Defense Mapping Agency, St. Louis, Missouri. June to December 1980.

Graduate Research Assistant, University of Missouri. August 1978 to June 1980.

Forest Technician, Rio Grande National Forest, Del Norte, Colorado. May to August 1977 and January to March 1978.

Teaching Assistant, University of Missouri. September 1976 to May 1977.

EXTENSION ACCOMPLISHMENTS

Urban/Community Forestry

- Focus on educating urban foresters and tree care professionals about tree biology related to landscape tree health and function, and about how they can help community members achieve their goals.
- Speak at and organize conferences and workshops, produce publications, videos, and web pages, and directly assist extension agents and urban forestry professionals.
- Created award-winning Tree Browser website (www.treebrowser.org) and App (working with Wes James) and USU Extension forestry (forestry.usu.edu) websites.
- Served as first Chairman of the Board of TreeLink (see www.treelink.org).
- Invited member of the teaching cadre of the first Municipal Foresters Institute (2006), a very successful

program that educates 30-40 municipal foresters per year from the U.S. and Canada.

- Notable publications include the books *Trees of Utah and the Intermountain West* and *Trees of Nebraska* and two *What Tree Is That?* tree ID guides for the NADF (several hundred thousand distributed).
- Invited talks at National Arbor Day Foundation's (NADF) Trees and Utilities Conferences, Community Forestry at its Best, and Partners in Community Forestry Conferences; SAF National Conventions; ISA Annual Conferences; National Urban Forestry Conferences; the Farwest Nursery Show (Oregon; largest nursery professional trade show in the world); the Minnesota Shade Tree Workshop (keynote; about 650 in attendance); the Western Slope Tree Care Conference (Colorado); and at many other local and regional conferences and workshops.
- Sabbaticals at Oregon State University, College of Forestry in 1998-99 and U.S. Forest Service PNW Station lab in Seattle in 2008-09, focused largely on urban forestry.

Private Forest Landowner Education Program

- Focus on improving forest practices on private forest land in Utah, helping landowners accomplish their land management goals, and helping Utahns understand forests and forestry.
- I created and administer this program; Darren McAvoy and hourly staff carry out day-to-day operations.
- Funded by \$124K annual appropriation from State of Utah; additional \$794K funding received for program from USDA-FS from 2000 to 2008.
- Program activities include quarterly newsletter, fact sheets, and other publications; workshops and webinars; working with agencies and organizations; and providing direct assistance to landowners and the forest industry.
- Thousands of landowners and others reached through this program since its inception in 1997.

Wildland/Urban Interface Issues

- Focus on increasing awareness of and knowledge about appropriate living in the wildland/urban interface, with an emphasis on vegetation and fire safety.
- Represented Extension on national Firewise Landscaping Task Force with the USDA Forest Service and National Fire Protection Association (this task force originated the "firewise" concept).
- Have presented on these subjects to community representatives from throughout Utah.
- Produced booklet *Firewise Landscaping for Utah* (over 50,000 hard copies distributed).
- Regularly write newsletter articles and media releases on these subjects.

RESEARCH ACCOMPLISHMENTS

Research Projects

- Recent research focus has mirrored extension focus, with emphasis on trees in cultivated landscapes, urban forestry, and forest landowners' practices and attitudes. Examples of specific studies include:
 - Public knowledge and attitudes about utility line clearance pruning (funded by ISA).
 - Utah urban forestry program characteristics (funded by Utah state forestry).
 - Characteristics of women and minorities in urban forestry professions (funded by NUCFAC).
 - Effects of root ball packing materials on root growth (funded by ISA).
 - NIPF landowners' attitudes about ecosystem management (funded by USDA CSREES).
 - Status of urban forestry and urban forestry programs in the Intermountain West (1997 and 2013).

Graduate Education

- Have supervised 5 M.S. and one Ph.D. student and served on committees of an additional 17 M.S. and 4 Ph.D. students.

Presentations

- Research results reported at a National Urban and Community Forestry Advisory Committee meeting, National Association of State Foresters meeting; Association of Natural Resource Extension Professionals

Conferences, ISA National Conferences; National Urban Forestry Conferences; SAF National Conventions; North American Forest Biology Workshops, and others.

Grants, Funding (including Extension)

- \$237,245 as PI last 5 years and \$731,245 since 2004.
- \$1,870,000 from the State of Utah for Forest Landowner Education Program support (\$110,000 to \$120,000 per year since 1997)
- \$794,000 from USDA-Forest Service through direct Congressional appropriations 2000-08

ADMINISTRATIVE ACCOMPLISHMENTS

- Interim Head of Wildland Resources Department, July 1, 2012 to now. This department has 31 faculty, several hundred students, dozens of staff, and a \$7.3 million dollar budget, including \$4.8 million in grants. Significant accomplishments since I started as DH include hiring three faculty, reworking our undergraduate curricula, and conducting a research futures exercise with the department. I also am chairing the WATS Department Head search committee.
- Acting Head of USU's Department of Forest Resources, August 2000 to July 2001; 14 full-time faculty, several hundred undergraduates, budget of \$1.1 million excluding grants. Participated in faculty and staff evaluations and annual budget process, while maintaining my Extension program and teaching an introductory undergraduate course.
- Represented USU on national Natural Resources and Environmental Management Team, 2003.
- Administer Utah Forest Landowner Education Program, 1997-now.
- Forestry, Fisheries, & Wildlife Department Extension coordinator at Univ. of Nebraska, 1986-1992.

TEACHING ACCOMPLISHMENTS

- Taught senior-level Environmental Education course for three years. Enrollment went from 6 students before I taught it to 24 my last year. High student evaluations. The course I designed was used as the basis for a course that has been taught by others for several years.
- Taught one-credit natural resources introduction class while serving as Acting Department Head.
- Helped design and teach a 3 credit online Urban Forestry course using WebCT, one of the first such courses in the country.
- Advised all USU undergraduate forestry students from 2005 to 2012.

HONORS AND AWARDS

- Association of Natural Resources Extension Professionals (ANREP) President-elect, President, past-president, 2008-10
- Gold Award Refereed Journal Article, ANREP, 2009
- Silver Award Webpage, ANREP, 2009
- Technology Team Award for the New Tree Browser, ESP Iota Chapter, 2009
- Overall USU Extension Specialist Award, USU, 2008
- Silver Award Refereed Journal Article, ANREP, 2007
- President's Award, ANREP, 2006
- Gold Award, Newsletter, Association of Natural Resources Extension Professionals, 2006
- President's Award, Utah Community Forest Council, 2004
- Innovative Program Award, USU Extension Specialist Association, 2004
- Merit Award, Intermountain Society of American Foresters, 2004
- Silver Award Web Page, Association of Natural Resources Extension Professionals, 2004
- Forester of the Year, Intermountain Society of American Foresters, 1997
- New Specialist Award, USU Extension Specialist Association, 1995
- Outstanding New Specialist Award, Nebraska Cooperative Extension Association, 1990
- Project Learning Tree Outstanding New Program Award, 1990

MEMBERSHIP IN PROFESSIONAL ORGANIZATIONS

- Association of Natural Resources Extension Professionals
- Society of American Foresters
- International Society of Arboriculture (including Utah Chapter)
- International Union of Forestry Research Organizations
- Xi Sigma Pi
- Utah Community Forest Council
