The Making of the Mass Aggie Seed Library

Paulina Borrego

Available at: https://works.bepress.com/paulina_borrego/34/
The Mass Aggie Seed Library is located in the Science and Engineering Library, Lederle GRC Lowrise.

The seed library, now open for seed borrowing and donation, houses a collection focusing on organic, open-pollinated and heirloom vegetable and flower seeds as well as a collection of books to educate the community about seed saving. Additionally, seed-saving tools will soon be available for loan to encourage and support seed-saving efforts.

The Seed Library is made possible through a generous grant from the UMass Amherst Sustainability, Innovation & Engagement Fund (SIEF).
