In Class Work 6

Fiscal Policy

1. What were the problems with the stimulus and unemployment checks? What could the government do to fix these problems if there is a second round?
2. Where have most of the job losses occurred. How could the government target a policy to reach these areas/individuals?
3. What was the concern with the extra \$600 given to unemployed workers? Did this turn out to be the case?

5. If the Federal government was going to pass another stimulus bill, what are the TOP THREE priorities it should have?
