

[7th Congress.]

No. 153.

[1st Session.]

CITY OF WASHINGTON.

COMMUNICATED TO THE HOUSE OF REPRESENTATIVES, FEBRUARY 12, 1802.

Mr. NICHOLSON made the following report:

The committee, to whom was referred the message of the President of the United States of the 11th ultimo, transmitting a memorial of the commissioners of the city of Washington; and to whom was likewise referred a resolution of the House of Representatives of the 5th instant, directing the committee to inquire into the expediency of discontinuing the offices of the said commissioners, beg leave to report the following resolutions for the consideration of the House:

1. *Resolved*, That from and after the 1st day of March next, the offices of two of the commissioners of the city of Washington ought to be discontinued, and thereafter the powers now vested in the board of commissioners ought to be vested in one only, who ought to discharge all the duties now required to be performed by the whole number.

2. *Resolved*, That prior to the 1st day of March next, the said commissioners ought to settle their accounts with the accounting officers of the Treasury; and all debts which have been contracted by them in their capacity as commissioners, and for the payment of which no particular provision is hereinafter made, ought to be discharged in the usual manner by the commissioner retained.

3. *Resolved*, That so many of those lots in the city of Washington which are pledged for the repayment of a loan of two hundred thousand dollars, made by the State of Maryland in the years 1796 and 1797, to the commissioners of the said city, ought to be annually sold, as may be sufficient to pay the interest and instalments of the said loan, as they may respectively become due: provided, that if, in the opinion of the President of the United States, the sale of a sufficient number of the said lots, to meet the objects aforesaid, cannot be made without an unwarrantable sacrifice of the property, then so much money as may be necessary to provide for the deficiency ought to be advanced from the Treasury of the United States.

4. *Resolved*, That so many of the lots in the said city which were sold prior to the 6th day of May, in the year 1796, and have reverted to the commissioners, in consequence of a failure on the part of the purchasers to comply with their contracts, ought to be sold, as will be sufficient to pay to the State of Maryland the sum of fifty thousand dollars, with the interest thereon, on or before the 1st day of November next; which sum was loaned by the said State to the commissioners aforesaid, in the year 1799: provided that, if in the opinion of the President of the United States, the sale of a sufficient number of the said lots, to meet the objects aforesaid, cannot be made without an unwarrantable sacrifice of the property, then so much money as may be necessary to provide for the deficiency ought to be advanced out of the Treasury of the United States.

5. *Resolved*, That all moneys advanced out of the Treasury of the United States, in pursuance of these resolutions, ought to be reimbursed as soon as possible, after the debts already contracted by the commissioners have been discharged, by applying towards the reimbursement every sum of money which may be afterwards raised out of the city funds, until the whole of the money advanced shall be repaid.

[7th Congress.]

No. 154.

[1st Session.]

ROLL OF THE OFFICERS, CIVIL, MILITARY, AND NAVAL, OF THE UNITED STATES.

COMMUNICATED TO CONGRESS, FEBRUARY 17, 1802.

Gentlemen of the Senate and of the House of Representatives:

FEBRUARY 16, 1802.

I now transmit a statement of the expenses incurred by the United States in their transactions with the Barbary Powers,* and a roll of the persons having office or employment under the United States, as was proposed in my messages of December the 7th and 22d. Neither is as perfect as could have been wished; and the latter not so much so as further time and inquiry may enable us to make it.

The great volume of these communications, and the delay it would produce to make out a second copy, will, I trust, be deemed a sufficient reason for sending one of them to the one House, and the other to the other, with a request that they may be interchanged for mutual information, rather than to subject both to further delay.

TH: JEFFERSON.

Sir:

TREASURY DEPARTMENT, February 12, 1802.

I have the honor to enclose the list of the several officers of Government, with their salaries or emoluments, as compiled in this or received from the other Departments, and arranged in the following manner:

They may be considered as forming two general classes: one consists of all those who are employed in the collection of the public revenue, and receive their compensations by deducting the amount thereof from the moneys collected by them; the other embraces all the other officers who receive their compensations from moneys drawn out of the Treasury.

1802.] ROLL OF CIVIL, MILITARY, AND NAVAL OFFICERS. 261

The first class is arranged under four general heads, viz: 1st. Officers employed in the collection of the external revenues; 2d. Officers employed in the collection of the internal revenues; 3d. Receivers and registers of the land offices; 4th. Deputy Postmasters.

1st. The officers employed in the collection of the external revenue are the collectors, naval officers, surveyors, masters and mates of revenue cutters, appointed by the President; and the port inspectors, measurers, weighers, and gaugers, who are appointed by the collectors, with the approbation of the Secretary of the Treasury; to which may be added the bargemen employed by collectors.

A few of the collectors, naval officers, and surveyors, all the officers of the revenue cutters, and the port inspectors, receive a yearly, monthly, or daily allowance. The greater part of the compensations received by the collectors, naval officers, and surveyors, arises, however, from commissions paid out of the revenue, and fees paid by individuals. The measurers, weighers, and gaugers, receive certain fees or allowances, determined by the specific services rendered, and paid out of the revenue.

2d. Officers employed in the collection of the internal revenues consist of supervisors, and two inspectors, whose office still subsist, appointed by the President, collectors, and auxiliary officers, appointed by the supervisors. The pay of all those officers, which consists partly of salaries, partly of fees, and partly of commissions, is paid out of the revenue. The emoluments in the enclosed list are (for both those classes) those received during the year 1800, although the names of those officers appointed by the President, who were in office on the 31st day of December, 1801, have been inserted.

3d. Receivers and registers of the land offices are appointed by the President. The receivers receive one per cent., and the registers one-half per cent., on all moneys collected; besides which the registers receive certain fees from individuals.

4th. Deputy postmasters are appointed by the Postmaster General, and paid by commissions out of the moneys collected. It must be observed that the amount of emoluments returned is the gross sum received by them, and includes the expenses of store rent and clerks.

The second class is arranged under the four heads of civil, foreign, military, and naval departments.

1. Civil establishment includes the President and Vice President, the Legislature and officers attached to the same, the Judiciary, the departments at the seat of Government, the territorial officers, and the several general establishments of commissioners of loans, purveyor of public supplies, mint, surveying, and light-houses.

2. The foreign intercourse establishment includes the diplomatic establishment, commissioners and agents under or in relation to the British treaty, and consuls.

3. The military establishment includes the officers of the army, the agents of the quartermaster's department, the superintendents and other officers of the armories, the superintendent and storekeepers of the military stores, the superintendents and other agents of the Indian department, and the agents for fortifications.

4. The naval establishment includes the officers of the navy and of the marine corps, the navy agents, and the superintendents of the navy yards.

I have the honor to be, very respectfully, sir, your most obedient servant,

ALBERT GALLATIN.

The PRESIDENT OF THE UNITED STATES.
