Bibliography
Even-aged Growth and Yield
(198 entries)

1. Frothingham, E. H. (1914) "Suitability of White Pine for Management." *U.S. Department of Agriculture, Bulletin No. 13*: 1-70.
2. Sterrett, W. D. (1914) "Loblolly Pine Adapted to Forest Management." *U.S. Department of Agriculture, Bulletin No. 11*: 1-58.
3. Frothingham, E. H. (1915) "The Eastern Hemlock." *U.S. Department of Agriculture, Bulletin No. 152*: 1-43.
4. Larsen, L. T. and T. D. Woodbury. (1916) "Sugar Pine." *U.S. Department of Agriculture, Bulletin No. 426*: 1-40.
5. Sterrett, W. D. (1921) "A Generalized Yield Table for Even-Aged Well-Stocked Stands of Southern Upland Hardwoods." *Journal of Forestry*, 19: 382-389.
6. Bruce, D. (1923) "Anamorphosis and Its Use in Forest Graphics." *Journal of Forestry*, 21: 773-783.
7. Bruce, D. (1926) "A Method of Preparing Timber-Yield Tables." *Journal of Agricultural Research*, 32: 543-557.
8. Reineke, L. H. (1927) "A Modification of Bruce's Method of Preparing Timber-Yield Tables." *Journal of Agricultural Research*, 35: 843-856.
9. McArdle, R. E and W.H. Meyer. (1930) "The Yield of Douglas Fir in the Pacific Northwest." *U.S. Department of Agriculture, Bulletin No. 201*: 1-65.
10. Reineke, L. H. (1933) "Perfecting A Stand-Density Index for Even-Aged Forests." *Journal of Agricultural Research*, 46: 627-638.
11. Osborne, J. G. and F. X. Schumacher. (1935) "The Construction of Normal-Yield and Stand Tables for Even-Aged Timber Stands." *Journal of Agricultural Research*, 51: 547-564.
12. MacKinney, A. L. and F. X. Schumacher. (1937) "Construction of Yield Tables for Nonnormal Loblolly Pine Stands." *Journal of Agricultural Research*, 51: 531-545.
13. Schnur, G. L. (1937) "Yield, Stand, and Volume Tables for Even-Aged Upland Oak Forests." *U.S. Department of Agriculture, Technical Bulletin No. 560*: 1-87.

14. Chaiken, L. E. (1939) "The Approach of Loblolly and Virginia Pine Stands Toward Normal Stocking." *Journal of Forestry*, 37: 866-871.
15. Schumacher, F. X. (1939) "New Growth Curve and Its Application to Timber-Yield Studies." *Journal of Forestry*, 37: 819-820.
16. Chisman, H. H. and F. X. Schumacher. (1940) "On the Tree-Area Ratio and Certain of Its Applications." *Journal of Forestry*, 38: 311-317.
17. Wellwood, R. W. (1943) "Trend Towards Normality of Stocking for Second-Growth Loblolly Pine Stands." *Journal of Forestry*, 41: 202-209.
18. Bickerstaff, A. (1946) "The Effect of Thinning Upon the Growth and Yield of Aspen Stands." *Silvicultural Research Note No. 80, Project P-19, Dominion Forest Service, Ottawa, Canada.*
19. Westveld, M. (1953) "Empirical yield tables for Spruce-Fir cut-over lands in the northeast." *U.S.D.A. Forest Service, Station Paper No. 55, 64 pages.*
20. Spurr, S.H. (1954) "Simplified computation of volume and growth." *Journal of Forestry*, 52(12): 914-922.
21. Gingrich, S. F. and H. A. Meyer. (1955) "Construction of an Aerial Stand Volume Table for Upland Oak." *Forest Science*, 1: 140-147.
22. Wenger, K. F., T. C. Evans, T. Lotti, R. W. Cooper, and E. V. Brender. (1958) "The Relation of Growth to Stand Density in Natural Loblolly Pine Stands." *U.S.D.A. Forest Service, Southeastern Forest Experiment Station Paper No. 97.*
23. Gruschow, G. F. and T. C. Evans. (1959) "The Relation of Cubic-Foot Volume Growth To Stand Density in Young Slash Pine Stands." *Forest Science*, 5: 49-55.
24. Smith, J. H. G. and J. W. Ker. (1959) "Empirical Yield Equations for Young Forest Growth." *British Columbia Lumberman*, 43: 22-25.
25. Brender, E. V. (1960) "Growth Predictions for Natural Stands of Loblolly Pine in The Lower Piedmont." *Georgia Forest Research Council, Report No. 6.*
26. Schumacher, F. X. and T. S. Coile. (1960) "Growth and Yields of Natural Stands of the Southern Pines." *T. C. Coile Inc., Durham, NC. 1-115 pp.*
27. Buckman, R. E. (1961) "Development and Use of Three Stand Volume Equations for Minnesota." *Journal of Forestry*, 59: 573-575.
28. Nelson, T. C., J. L. Clutter, and L. E. Chaiken. (1961) "Yield of Virginia Pine." *U.S.D.A. Forest Service, Southeastern Forest Experiment Station Paper No. 124.*

29. Nelson, T. C., T. Lotti, E. V. Brender, and K. B. Trousdell. (1961) "Merchantable Cubic-Foot Volume Growth in Natural Loblolly Pine Stands." *U.S.D.A. Forest Service*, Southeastern Forest Experiment Station Paper No. 127.
30. Buckman, R. E. (1962) "Growth and Yield of Red Pine in Minnesota." *U.S.D.A. Forest Service*, Lake States Forest Experiment Station, Technical Bulletin No. 1272.
31. Lemmon, P. E. and F. X. Schumacher. (1962) "Volume and Diameter Growth of Ponderosa Pine Trees as Influenced by Site Index, Density, Age, and Size." *Forest Science*, 8: 237-249.
32. Ralston, C.W. and C.F. Korstian. (1962) "Prediction of pulpwood yield of Loblolly and Shortleaf pine plantations." *Forest Science*, 8(2): 149-162.
33. Clutter, J. L. (1963) "Compatible Growth and Yield Models for Loblolly Pine." *Forest Science*, 9: 354-371.
34. Moessner, K.E. (1963) "Composite aerial volume tables for conifer stands in the mountain states." *U.S.D.A. Forest Service*, Research Note INT-6, 4 pages.
35. Williamson, R. L. (1963) "Growth and Yield Records From Well-Stocked Stands of Douglas-Fir." *U.S.D.A. Forest Service*, Pacific Northwest Forest and Range Experiment Station, Research paper PNW-4.
36. Dahms, W. G. (1964) "Gross and Net Yield Tables for Lodgepole Pine." *U.S.D.A. Forest Service*, Pacific Northwest Forest and Range Experiment Station, Research paper PNW-8.
37. Dahms, W. G. (1966) "Relationship of Lodgepole Pine Volume Increment to Crown Competition Factor, Basal Area, and Site Index." *Forest Science*, 12: 74-82.
38. Curtis, R. O. (1967) "A Method of Estimation of Gross Yield of Douglas-fir." *Forest Science Monograph*, 13: 1-24.
39. Bennett, F. A. and J. L. Clutter. (1968) "Multiple-Product Yield Estimates for Unthinned Slash Pine Plantations--Pulpwood, Sawtimber, Gum." *U.S.D.A. Forest Service*, Southeastern Forest Experiment Station, Research Paper SE-35.
40. Bennett, F. A. (1969) "Design Difficulties in Stand Density Studies." *U.S.D.A. Forest Service*, Southeastern Forest Experiment Station, Research Paper SE-111.
41. Bruce, D. (1969) "Potential Production in Thinned Douglas-fir Plantations." *U.S.D.A. Forest Service*, Research Paper PNW-87.

42. Bennett, F. A. (1970) "Yields and Stand Structural Patterns for Old-Field Plantations of Slash Pine." *U.S.D.A. Forest Service*, Southwestern Forest Experiment Station, Research Paper SE-60.
43. Bennett, F. A. (1970) "Variable-Density Yield Tables for Managed Stands of Natural Slash Pine." *U.S.D.A. Forest Service*, Southeastern Forest Experiment Station, Research Note SE-141.
